Jay:

I sent in two claims: deferred cash and options. I included two separate SASE for responses. I got one on the options. Can you tell me if I am in the computer data base on the deferred cash?

I see the one for the options, but not the one for the deferred cash. You are on the company's records for the deferred cash, which is really the best place that you can be in this process. Let's see if it shows up in the next week.
